

# Resonance

**DATE: 3<sup>rd</sup> to 4<sup>th</sup> February, 2023**

The technical fest "Resonance" was a platform for students to showcase their technical skills and knowledge. The event was held over two days, on 3rd and 4th February, and was packed with various technical activities and competitions.

One of the highlights of the event were the two mega events - Project Expo and Ideathon. The Project Expo was a competition where participants from various colleges displayed their projects and were evaluated by a panel of judges on various metrics. The Ideathon was an event where participants put forth their innovative ideas and received feedback and guidance from experts in the field.

The event also included workshop on blockchain conducted by Ajinkya Lohakare, the CTO and founder of DITTO Security. The workshop provided an opportunity for attendees to learn about blockchain technology, its applications, and its future prospects. Ajinkya Lohakare, with his extensive experience in the field of cybersecurity, was able to impart valuable knowledge and insights into the technology.

Another workshop was on Photoshop and After Effects, which was conducted by Koushik Ayireni, a shortfilm director and VFX artist at Shreyas Media. The workshop provided attendees with a hands-on experience in using the software for visual effects and image editing. Koushik Ayireni, with his expertise in the field, was able to provide valuable tips and tricks to attendees.

In addition to these, there were other technical events such as Code Hunt, which consisted of debugging and blind coding challenges, Shape It Up, where participants were asked to come up with a drawing of a robot with certain restrictions, and Sci Tech Trivia, which was a multi-level quiz competition based on science and technology.

In conclusion, the technical fest "Resonance" provided a platform for attendees to showcase their technical skills, learn from experts in the field, and participate in various competitions. The event was well-received by attendees and was deemed a success overall.

# Cyber Congress Workshop

**DATE: 26<sup>th</sup> November, 2023**

The workshop was organized by End Now Foundation. It is India's first non-profit organization, advocating for better Internet Ethics and Digital Wellbeing.

The workshop addressed the rising concerns on Cybercrimes in the modern age.

Speakers from various domains addressed the issue from their varied perspectives. They provided their viewpoints as to why the problem arises and what could be the possible methodologies that the internet and smartphone users can equip themselves with, to tackle them.

Several dignitaries graced the event, S. Harinath, ACP; Anil Rachamalla, Founder and CEO of End Now Foundation, Chary, a Cybersecurity specialist, and Alekhya, a Cybersecurity specialist were few of them.

CSI GRIET sponsored the workshop and CSI EB members volunteered in carrying out the event.

All the guests and attendees appreciated the club's efforts in conducting the workshop successfully and were happy to have a good learning time at the workshop.

# CODIGO 2.0

**DATE: 22<sup>nd</sup> October,2022**

An offline coding contest – CODIGO 2.0, was conducted by CSI GRIET. Registrations for the event were done through help desk set up at the college premises. There were 153 registrations in total. Participants included students from all branches and years.

Coding Platform used – Hacker Rank

The contest was held in two rounds: round 1 was conducted from 10:00am- 11:30am. After round 1, 83 participants were considered for round 2. A doubt resolving session on round 1 was held for other participants who could not advance to round 2. The second round commenced from 12:45pm-2:15 pm. Students participated actively.

Top performers were given Merit Certificates and cash prize.
